

## 75-meter Net Control Script

Rev 11/01/2022 EFF 11/07/2022

At 6:45PM: Calling the Colorado Region Traffic net (repeat 3-times)(do not mention K0NTS)

This net meets on this frequency 3.989 Monday to Friday for the purpose of handing formal written traffic into and out of the Colorado Region.

All stations licensed to operate on this frequency are welcome to check in.

This is *(your call in phonetics)* located near *(your location)*

Any stations with Emergency, Priority, Welfare or Time sensitive traffic for the net?  
*(pause and listen for stations)* Any Relays?

Net Control now calling for stations from anywhere to check in with our without traffic.

*(At this time take check in stations, list their name, location and traffic)*

Net recognizes *(list the stations and any traffic)*

*(Have the strongest station you can hear make a net call as propagation on frequency may favor another station, then another station at a different location.)*

*(If any traffic check for/or assign stations to handle)*

*(If no more stations for the net and traffic has been passed or directed to VHF Section Net then have another station give a call for stations to be sure all have checked in. Log any of them and any traffic and attempt to pass traffic on net or direct to VHF net.)*

*(Release all stations)*

The Colorado Region Net meets on this frequency 3.989 Monday to Friday at 6:45PM local Mountain Time. All stations licensed to operate on this frequency are welcome to join. Please visit our website [WWW.K0NTS.ORG](http://WWW.K0NTS.ORG) for more information about this Net.

This is *(your call)* closing the net at *( time)* local Mountain time and *(time)* UTC, 73, good evening.

*Log the number of check in stations and traffic to the K0NTS web site. Also list the states checked in.*
